083 862 1491 | [alungilemvenyeza@gmail.com](mailto:alungilemvenyeza@gmail.com) | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

---

Motivated software developer with practical experience building full-stack applications. Strong foundation in C#, SQL, and ASP.NET Core with exposure to Git, OOP, and web technologies. Eager to learn, contribute to team projects, and grow in a professional environment

## TECHNICAL SKILLS

---

- **Languages:** C#, HTML, CSS, SQL
- **Frameworks:** ASP.NET Core MVC, EF Core, Bootstrap
- **Databases:** SQL Server, Dapper ORM, Stored Procedures
- **Tools:** Visual Studio, VS Code, GitHub, SSMS

## PROJECT EXPERIENCE

---

### Trip Coordination Platform - 2025

[Live Site](#) | [GitHub](#)

A trip-sharing platform for students and users to create, join, or request group travel plans.

- Designed and deployed a full-stack web platform using ASP.NET Core MVC and SQL, enabling users to manage and join shared trips
- Built RESTful APIs using Dapper and EF Core to handle trip logic, seat tracking, and route management
- Implemented role-based access control and trip restrictions to enforce business rules
- Developed responsive views with Bootstrap to support both desktop and mobile users

**Tech Stack:** ASP.NET Core MVC, EF Core, Dapper, SQL Server, Bootstrap, Identity

### Portfolio Website - 2024

Personal website to showcase projects, skills, and contact details.

- Created a responsive layout using Bootstrap grid to display project cards across all screen sizes
- Customized clean styling to improve readability and highlight key sections
- Deployed publicly for recruiters and collaborators to explore technical background

**Tech Stack:** HTML, CSS, Bootstrap

### Order Management System (WinForms) - 2023

A desktop system to manage orders, stock, and customers for small businesses.

- Built a 3-tier WinForms application using C# and SQL Server for product ordering and stock flow
- Used stored procedures to execute secure operations like placing orders and generating reports
- Implemented soft-delete logic and form-based UI for reliable data entry and retrieval

**Tech Stack:** WinForms, C#, SQL Server, Stored Procedures

## EDUCATION

---

### Diploma in Information Technology (Software Development)

*Graduated: 11 April 2025*
