PROFESSIONAL SUMMARY

Recent IT graduate in Software Development from Nelson Mandela University with firsthand experience in full-stack development, database management, and software project execution. Skilled in HTML, CSS, C#, ASP.NET Core, and SQL, with a strong interest in building efficient, user-friendly software.

EDUCATION

Diploma in Information Technology (Software Development)

Nelson Mandela University

Graduated: 11 April 2025

Core Modules: Software Development, Systems Software, Technical Programming, Internet Programming and Information Systems.

National Senior Certificate

Langa Senior Secondary School

Year Obtain: 2020

Core Subjects: Mathematics, Physical Sciences, Life sciences and Geography.

TECHNICAL SKILLS

- **Languages:** C#, JavaScript, HTML, CSS, and SQL
- **Frameworks:** ASP.NET Core, Entity Framework (EF) Core, MVC and Bootstrap
- **Tools:** Visual Studio, VS Code, Microsoft SQL Server, and GitHub.

SOFT SKILLS

- Problem solving and Analytical thinking
- Teamwork and Collaboration
- Adaptability and Flexibility
- Innovation and Creativity
- Effective communication

PROJECTS

Landing Page for Cheesecake Business — 2025

view live page: <http://iamunique014.github.io/Cheese-Cake-Design>

- Designed and developed a fully responsive landing page for a cheesecake business using HTML, CSS, and Bootstrap.
- Implemented a visually appealing layout with a modern design aesthetic, leveraging Bootstrap for responsive grid structures and styling.
- Ensured cross-device compatibility with optimized media queries for screens of various sizes.
- Integrated custom buttons, icons, and forms for a polished user experience.

Student Management System — 2025

- Developed a robust web application for managing students, courses, and enrolments using ASP.NET Core MVC, EF Core, and MSSQL.
- CRUD operations for students, courses, and enrolments
- Soft delete functionality for better data management.
- Comprehensive admin dashboard displaying real-time statistics and insights

Portfolio Website — 2024

view live page: <https://iamunique014.github.io/Mr-unique/>

- Designed and developed a personal portfolio website to highlight technical skills, projects, and professional background.
- Built a responsive and modern landing page utilizing HTML, CSS, and Bootstrap to ensure cross-device compatibility.
- Focused on clean, accessible design with a user-friendly layout to highlight key achievements and projects.
- Integrated custom styling with Bootstrap's grid system to create a visually appealing and interactive interface.

Order Management System (WinForms, MSSQL) – 2023

- Built a 3-tier application with **soft-delete logic**, data reporting, and **form-based input** for products and customer orders.
- Developed a robust relational database for the system.
- Designed and implemented order workflows.
- Integrated **stored procedures** for key operations such as order placements, product lookup, and reports.

WORKING EXPERIENCE

Education Assistant

2021 – 2022

Nkungwini Junior Secondary School

Nkungwini AA

Key Responsibilities:

- Assisted with learner curriculum implementation.
- Ensured all learner homework were graded.
- Provided support during oral reading sessions
- Helped learners with corrections for classwork.

HOBBIES AND INTERESTS

- **Coding Projects:** Building projects and experimenting with new technologies.
- **Photography:** Exploring creative perspectives and attention to detail.
- **Puzzle-Solving:** Enjoying Rubik's Cube to sharpen problem-solving skills.
- **Strategy Games:** Playing card games like Microsoft's Solitaire Collection to improve logical thinking.

LANGUAGES

- IsiXhosa – Native, English - Excellent, Zulu – Good.
