Career Summary

Junior .NET Developer with solid hands-on experience in building full-stack applications using ASP.NET Core MVC, C#, and SQL Server. Proven ability to design structured, testable systems using three-tier architecture, stored procedures, and emerging awareness of design patterns like Repository and SOLID principles. Passionate about clean code, design principles, and eager to grow in a collaborative environment.

Technical Skills

- **Languages:** C#, HTML5, CSS3, JavaScript, SQL
- **Frameworks:** ASP.NET Core MVC, .NET 6+, Windows Forms
- **Database:** Microsoft SQL Server, Dapper, Stored Procedures
- **Tools:** Visual Studio, SSMS, GitHub, Postman
- **Soft Skills:** Problem-solving, analytical thinking, team collaboration

Projects

Trip Coordination System (*ASP.NET Core MVC, SQL Server*)

Live Demo | GitHub

Developed a multi-role web app for trip booking and management.

- Built with ASP.NET Core, C#, Dapper, and stored procedures
- Included role-based access, validation, and responsive UI
- Designed for modularity, scalability, and real-world deployment

Order Management System (*WinForms, SQL Server*)

Built a desktop app for managing customers, products, and orders.

- Designed with 3-tier architecture and reusable UI controls
- Used stored procedures for CRUD operations and reporting
- Included input validation, error handling, and stock tracking

Education

National Diploma in Information Technology (Software Development)

Nelson Mandela University, Gqeberha

Graduated: 11 April 2025
